

■ VoiceMed — Clinical Referral Letter

Patient: **Manoj** · Generated: 2026-05-18 21:31 UTC · AI-assisted triage · For clinician review

SEVERITY: EMERGENCY

Referral Details

Referral Note

Patient: Manoj

Severity: EMERGENCY

Clinical finding: Burns visible on face and forearm, singed eyebrows, throat swelling, patient cannot speak clearly

Please assess and manage at the next available level of care.

Recommended Actions

- Take temperature
- If temperature above 38.5°C give paracetamol
- Remove excess clothing
- Encourage fluids
- Measure temperature (axillary: add 0.5°C for true temperature)
- Assess for malaria if in endemic area — do RDT if available

Red Flags

■ throat swelling

This referral was generated by VoiceMed AI triage assistant. It is intended to support — not replace — clinical judgment. A qualified clinician must review and confirm all decisions.
